To know more about founder

Hello, I am Rohit Mande, ex-Chief Data Scientist from Barclays. I am Founder and CEO of Inttrvu.ai

I have done my Master from Technical University of Darmstadt, Germany (2015) with focus on Machine Learning. I have published many patents based on my research work in this domain. I have 10+ years of professional experience in Data Science. I have hired, lead and built Data Science teams from scratch.

I know exactly what it takes to get interview calls and crack data science interviews. Through this program you would get opportunity to revise all key topics and questions from data science interview. You will get access to exclusive interview preparation materials along with CV review, capstone projects and mock interviews with Data Science Experts.

I look forward to helping you achieve your goals through this program.

Rohit Mande - Career Journey

İNTTRVU

2023
Founder and CEO, Inttrvu.ai

BARCLAYS

2021-2023
VP-Chief Data Scientist, Barclays

BARCLAYS

2018 -2021
AVP-Lead Data Scientist, Barclays

2017-2018
Senior Data Scientist, Cummins

AGT
International

2014-2017
Data Scientist,AGT Group GmbH
Filed Patents based on research work

TECHNISCHE
UNIVERSITAT
DARMSTADT

2013-2015
MS from Technical University of Darmstadt, Germany

CISCO SYSTEMS

2011-2013
Software Engineer, Cisco Systems

2007-2011
B.E. E & TC

iNTTRVU

Program Details

Who is This Program for

➤ Students and professionals who have studied data science from universities and online certification courses and now planning to apply for jobs and internships.
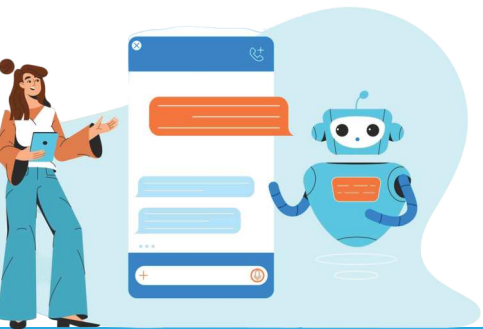

➤ Data Scientists with 0 to 5 years experience

Program Duration: 8 Weeks

-Revision through 100+ questions (Self-paced Learning)
-Build a chatbot using Generative AI
-Build 4 capstone projects
-CV review
-Mock interviews
-Detailed Feedback of Mock Interviews
-Career Guidance

iNTTRVU

Program Highlights

**Revision of Key topics and 100+ questions for Data Science Interview**

Document with 300+ most asked Q&A

Build chatbot using RAG framework (Generative AI)

Work on 4 industry relevant capstone projects
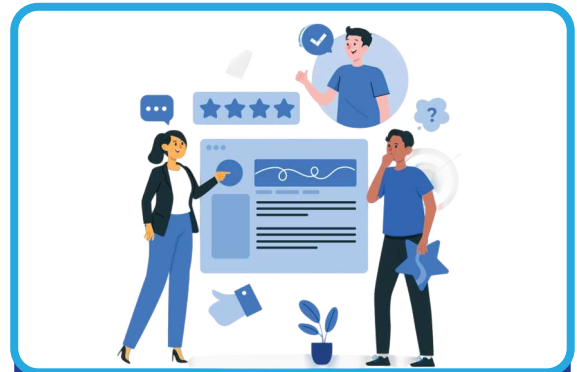

iNTTRVU

Mock interviews with Data Science experts

Course completion certificate

Standout CV creation guided and reviewed by experts

Detailed Feedback and plan of action to crack the interviews

Placement Assistance & Career guidance

iNTTRVU

Program details

➤ **Module 1**

Overview of the Program

Profiles related to Data Science Jobs

Salary ranges

Skill sets evaluated during interview

How to crack Python, SQL coding rounds?

How do data science projects work in the industry?

➤ **Module 2**

Revision of key questions and topics from:

-Statistics

-Regression Models

-Classification Models

INTTRVU

➤ **Module 3**
Revision of key questions and topics from:
-Unsupervised Learning
-Deep Learning Models
-NLP techniques

➤ **Module 4**
How to explain projects during interview?
Case Study Interview
Behavioural questions
HR questions

➤ **Module 5**
Code Structure for Data Science Project in industry
-API Deployment
-Batch Deployment
Deployment of DS Project on AWS Docker

➤ **Module 6**
Build chatbot using RAG framework
Interview Questions on Generative AI

➤ **Module 7**
How to build a great CV?
LinkedIn Profile Guidelines
How to identify new project opportunities?
How to evaluate business impact?
Job Application and Hiring Process

iNTTRVU

Capstone Projects

- **Solve business problem using classification model**
- **Solve business problem using regression model**
- **Solve business problem using clustering model**
- **Solve business problem using NLP model**
- **Solve a business problem using Generative AI**

Note: You will be building machine learning models on datasets containing millions of rows from various domains such as finance, manufacturing, healthcare, e-commerce, etc

Finance

Manufacturing

Healthcare

E-Commerce

INTTRVU

Student Reviews

Nitin Jethwani
Data Scientist
BAJAJ FINSERV

"The course material was comprehensive and straightforward, directly addressing today's job market needs.
Rohit was always on hand, providing personalized feedback that was crucial for improvement. Mock interviews felt incredibly authentic, boosting my confidence and skill significantly.
One of the most astonishing outcomes of this journey was the significant salary hike I achieved, thanks to the negotiation skills I learned through the program. I secured a position with a **130%** higher salary than my previous role.The number of offers(10+) I received allowed me to choose a role that was not just financially rewarding but also aligned with my career aspirations and values."

Shivam Agrawal
Data Scientist
accenture

"I attended a data science course offered by INTTRVU.ai and had an excellent experience. The course content is very streamlined and focuses on the most relevant topics for today's job market and advancements. The pace of teaching is excellent. Mr. Rohit frequently takes feedback from students to ensure everyone is keeping up. There are separate sessions each week dedicated to solving doubts. Through the support of INTTRVU.ai , I received a **50%** hike in my first offer from an MNC. Highly recommended for those looking to transition into the data science space. The course is great value for money and time well spent."

Rudesh More
Technical Specialist
in Data Science
DASSAULT SYSTEMES

"I feel fortunate to have discovered Inttrvu.ai. Their study material is updated with current AI/ML trends, it is precise, and crisp, which helps you prepare quickly for interviews. They also provide mock interviews which is a crucial part, where you learn to answer questions confidently. The staff and faculty are always available.
Rohit Sir, the head of the institute, guides you through every phase, from understanding technical concepts to interview preparation. He keeps you motivated in this competitive field. Thanks to Rohit Sir, under his guidance I secured a data science role with a **70%** salary hike!"

Student Reviews

Anshuman Pathak
Data Scientist

WELLS FARGO

"I am glad I came across this course at the right time when I was trying to internally switch into Data Science role from Prod role. The material with Interview questions especially for the stats and ML part were really helpful and a few were even directly starting points in my interview which I was able to crack. Thank you Team !"

Abhishek M
Associate Data scientist
Experience 2.4 Years

Bithub

"Rohit sir is the best teacher as well as mentor. The ease and confident you'll feel after talking to him and attending his sessions is simply awesome. Again, I came to know many new things and the different perspective to answer the question. Overall, my experience was best"

Dinesh Pal Malik
Project Manager
Experience 15 Years

Prodapt

"I find the interview preparation program very structured. Rohit is very experienced data scientist and he created the whole program keeping the nitty gritty of interview aspects like technical, managerial and HR round including negotiation strategies. I think it will certainly help the people to enter into data science field. Thanks!"

Harshal Bidkar
Production Support Analyst
Experience 13+ Years

BARCLAYS

"Overall, it was a great experience to know how the interview process works in ML area and how to tackle same, ensuring that we are fully prepared beforehand and can go through the process without any hinderances and with great confidence. Thanks to Rohit sir for the wonderful teaching."
