# About Founder

**Rohit Mande**

Founder, INTTRVU.AI  
Ex Chief Data Scientist, Barclays

Click on the icon  
To know more about founder

Hello, I am Rohit Mande, Founder and CEO of INTTRVU.ai. ( Ex-Chief Data Scientist, Barclays) I have built and delivered multiple Data Science and AI projects in the last 10 years.

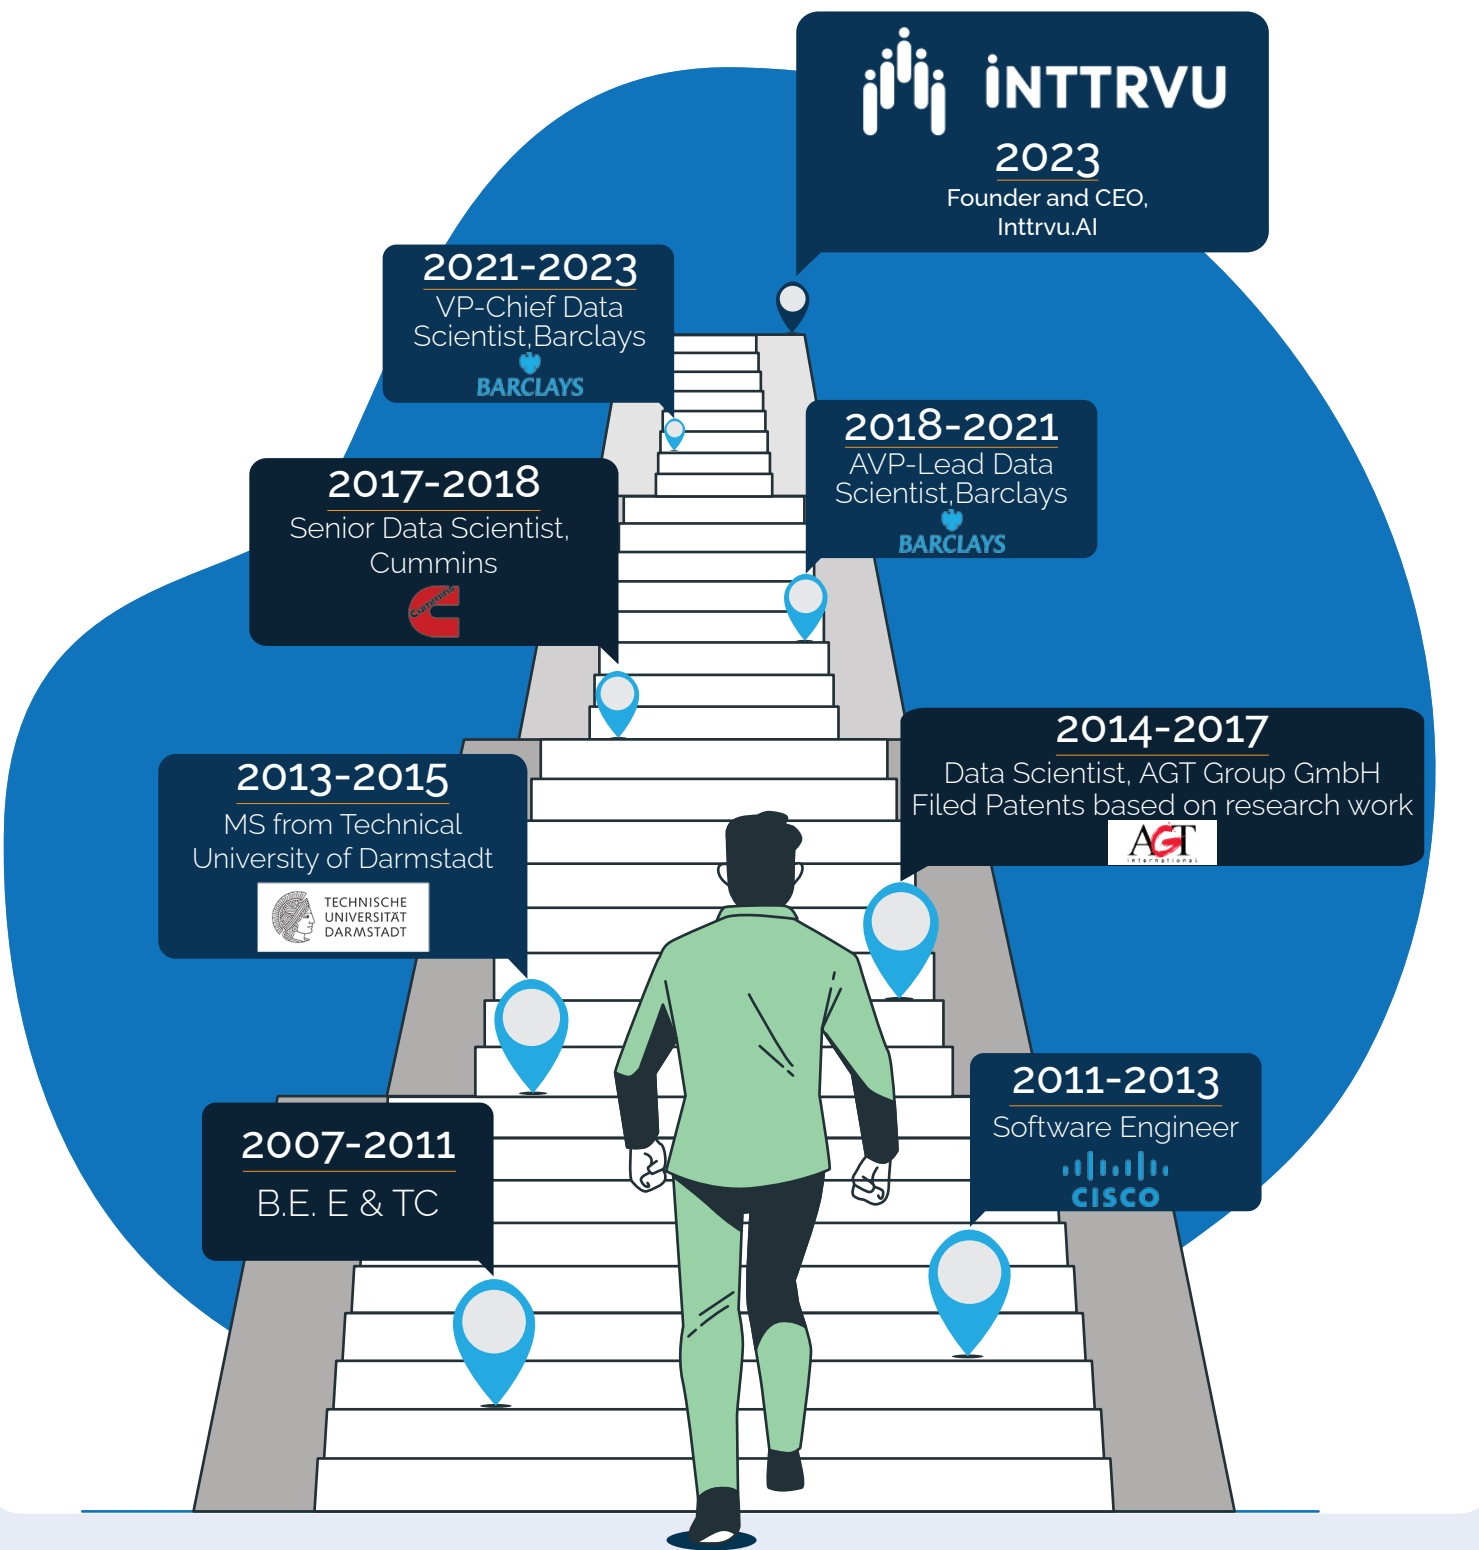

I am passionate about guiding people to a successful career transition. With this passion and a team of like-minded people, we have started INTTRVU.ai.

We have designed our Data Science and AI and Interview Preparation Programs based on the latest skillsets demanded by the industry. Our programs are highly practical-oriented with lots of hands-on learning, assignments, and projects.

I look forward to interacting with you during the program.

# Founder's Career Journey

# Program Details

## Who is This Program for

- ▶ Students and professionals who have studied data science from universities and online certification courses and now planning to apply for jobs and internships.
- ▶ Data Scientists with 0 to 5 years experience

## Why Choose This Program?

- Access video recordings of 100+ interview questions and answers
- Get a comprehensive document with 300+ most-asked Q&A
- Build a chatbot using Generative AI
- Deploy data science projects on AWS
- Work on 7 industry-relevant capstone projects
- CV review
- Mock interviews with hiring managers
- Learn industry-standard code structures
- Build a portfolio with real-world projects

**Program Duration: 8 Weeks**

# Why Interview Preparation is Important?

Breaking into or advancing your career in data science is challenging, whether you're a fresher or an experienced professional. Interviews test your technical skills, problem-solving, communication, and confidence. Many talented candidates struggle due to inadequate guidance and preparation.

That's where our **Interview Preparation Program** comes in, to guide you every step of the way and ensure you're fully equipped to land your dream job.

## What Makes Our Program Unique?

We focus on the essential skills and strategies that matter most:

- **Master Key Concepts:** Revise crucial topics in Python, SQL, Statistics, Machine Learning, NLP, and Deep Learning.
  - **Project Presentation Skills:** Learn how to explain your projects effectively to make a strong impression.
  - **Real-World Applications:** Understand how data science projects operate in various industries.
  - **Generative AI and Model deployment:** Build innovative solutions like chatbots using the RAG framework. Learn to deploy ML models on AWS Docker.
  - **Career Advancement Tips:** Craft a standout CV, optimize your LinkedIn profile, and learn how to navigate the hiring process with ease.
- And much more!

## Take the Next Step

**Our goal is simple:** to help you crack data science interviews and build the career you've always dreamed of. Whether you're just starting out or looking to make a career move, this program will provide you with a structured path, knowledge, and confidence to succeed.

**Join us today and let's make your data science dreams a reality!**

# Program Highlights

Revision of Key topics and 100+ questions for Data Science Interview

Build chatbot using RAG framework (Generative AI)

Deploy data science projects on AWS

Document with 300+ most asked Q&A

Work on 7 industry relevant capstone projects

Mock Interviews with Hiring Managers

Course completion certificate

Standout CV creation guided and reviewed by experts

Detailed Feedback and plan of action to crack the interviews

Placement Assistance & Career guidance

# Module details

## ▶ **Module 1**

Overview of the Program

Profiles related to Data Science Jobs

Salary ranges

Skill sets evaluated during interview

How to crack Python, SQL coding rounds?

How do data science projects work in the industry?

## ▶ **Module 2**

Revision of key questions and topics from:

-Statistics

-Regression Models

-Classification Models

## ▶ **Module 3**

Revision of key questions and topics from:

-Unsupervised Learning

-Deep Learning Models

-NLP techniques

## ▶ **Module 4**

How to explain projects during interview?

Case Study Interview

Behavioural questions

HR questions

Contact us to know more- +91 77560 43707

## ► **Module 5**

Code Structure for Data Science Project in industry

-API Deployment

-Batch Deployment

Deployment of DS Project on AWS Docker

## ► **Module 6**

Build chatbot using RAG framework

Interview Questions on Generative AI

## ► **Module 7**

How to build a great CV?

LinkedIn Profile Guidelines

How to identify new project opportunities?

How to evaluate business impact?

Job Application and Hiring Process

# Capstone Projects

**Note:** You will be building machine learning models on datasets containing millions of rows from various domains such as finance, manufacturing, healthcare, e-commerce, etc

- Solve business problem using classification model
- Solve business problem using regression model
- Solve business problem using clustering model
- Solve business problem using NLP model
- Solve business problem using Generative AI

## Finance

## Manufacturing

## Healthcare

## E-Commerce

# Student Reviews

Google  
  
 4.7 Star Rating

**Nitin Jethwani**

Data Scientist

"The course material was comprehensive and straightforward, directly addressing today's job market needs.

Rohit was always on hand, providing personalized feedback that was crucial for improvement. Mock interviews felt incredibly authentic, boosting my confidence and skill significantly.

One of the most astonishing outcomes of this journey was the significant salary hike I achieved, thanks to the negotiation skills I learned through the program. I secured a position with a **130%** higher salary than my previous role. The number of offers (10+) I received allowed me to choose a role that was not just financially rewarding but also aligned with my career aspirations and values."

**Shivam Agrawal**

Data Scientist

"I attended a data science course offered by INTTRVU.ai and had an excellent experience. The course content is very streamlined and focuses on the most relevant topics for today's job market and advancements. The pace of teaching is excellent. Mr. Rohit frequently takes feedback from students to ensure everyone is keeping up. There are separate sessions each week dedicated to solving doubts. Through the support of INTTRVU.ai, I received a **50%** hike in my first offer from an MNC. Highly recommended for those looking to transition into the data science space. The course is great value for money and time well spent."

**Rudesh More**

Technical Specialist  
in Data Science

"I feel fortunate to have discovered Inttrvu.ai. Their study material is updated with current AI/ML trends, it is precise, and crisp, which helps you prepare quickly for interviews. They also provide mock interviews which is a crucial part, where you learn to answer questions confidently. The staff and faculty are always available.

Rohit Sir, the head of the institute, guides you through every phase, from understanding technical concepts to interview preparation. He keeps you motivated in this competitive field. Thanks to Rohit Sir, under his guidance I secured a data science role with a **70%** salary hike!"

**Yogendra Singh**

ML Engineer (I2)

**HALLIBURTON** → **Avalara**

"I recently took the data scientist interview preparation course from Inttrvu, and it was fantastic. The sessions on resume preparation and explaining project details were very insightful and practical. They also provide a questionnaire for the interview, which gives you in-depth knowledge to prepare for the interview.

The highlight was the mock interviews with Rohit sir, an ex-Chief Data Scientist at Barclays. His feedback was invaluable, helping me identify improvement areas and boosting my confidence. Under his guidance, I successfully switched my job.

I highly recommend this course for anyone preparing for data science interviews. It's comprehensive and highly effective."

**Ajay Vamsi**

Lead Data Scientist

**Deloitte.** → **Tecnotree**

"The data science interview course exceeded my expectations! The content is well-structured, covering key concepts with clear explanations and practical examples. It boosted my confidence and prepared me thoroughly for interviews. I was able to crack multiple offers for data science role. Highly recommend for data science Interview preparation!"

**Anshuman Pathak**

Data Scientist

Production Role → Data Scientist

"I am glad I came across this course at the right time when I was trying to internally switch into Data Science role from Prod role. The material with Interview questions especially for the stats and ML part were really helpful and a few were even directly starting points in my interview which I was able to crack. Thank you Team !"

**Abhijeet Gangane**

 Scientist  
 Ministry of earth Sciences  
 Govt. Of India

"Rohit is highly skilled in the field of data science. He maintains a well-organized classroom environment that is conducive to learning, ensuring that everyone in the coaching session is able to thrive. With a keen eye for assessing learning outcomes for each individual in the classroom, he helps us understand and grasp concepts more quickly. I highly recommend Rohit's coaching academy, 'INTTRVU.ai,' if you want to pursue a career in data science; he is the perfect tutor for you."
